

# Institutional Garbage Bags 2800 Series

Our 2800 Series industrial garbage bags are made from a premium blend of the best quality, high molecular weight, and high density resin. Our manufacturing technology and production processes ensure an optimum quality and consistent product line.

These bags have exceptional strength and are ideal for heavy, wet trash and liquids at extremely high temperatures. These bags are roll form and easily dispensed from the perforated tabs located on the side of each case.

## Features & Benefits

- 3 times stronger and more durable than ordinary polyethylene liners of the same thickness
- 2/3 less petroleum-based raw material to manufacture
- 1/3 of the thickness of ordinary low density polyethylene liners and 1/3 of the weight
- 1/3 of your ordinary shipping, storage, and warehousing costs
- Substantial cost savings per liner vs. linear low density liners
- Resistant to extreme temperatures (-40° F to +212° F)
